Sounds good. I suspect we can make any revisions pretty fast

So fancy. I think she may have been expecting to see the assessment timeline merged with the RFR decision, but let's see if this works.

## Ex. 5 Deliberative Process (DP)

If no one jumps to mind, I can see if there's someone in IOAA who could help? I'm just strapped this week.

How about this?

**End of August:** End of 30 day public comment period on candidate peer reviewers

**Early to mid-September:** Reviewers are selected, public meeting date identified, and 60-day peer review starts

**Mid- to late October:** Public meeting is held within 60-day review period; EPA and Ramboll make joint presentation to review panel

**Mid- to late November:** Final peer review comments are due and EPA receives final peer review report

**End of the year:** Based on evaluation of peer review report, EPA will have the information needed to reach a decision on the Request for Reconsideration (RFR).

Talked to Jennifer about this this evening. She thought the timeline was a good start, but needs a little more oomph to be ready for the meeting.

## Ex. 5 Deliberative Process (DP)

Sorry. I was typing quickly, but this pretty much captures it.

Happy Friday!

-Lou

**Subject:** chloroprene timeline

Jennifer,

Here is our best estimate of timeline for decision making on chloroprene:

**End of August:** End of 30 day public comment period on candidate peer reviewers

**Early to mid-September:** Reviewers are selected, public meeting date identified, and 60-day peer review starts

**Mid- to late October:** Public meeting is held within 60-day review period; EPA and Ramboll make joint presentation to review panel

**Mid- to late November:** Final peer review comments are due

**End of the year:** Based on evaluation of peer review report, EPA will have the information needed to reach a decision on the Request for Reconsideration (RFR). The decision would be whether EPA will update the chloroprene assessment or not.

Let me know if you have questions....-k
